Transforming Lives. Restoring Dignity.

A program of  **CARITAS**

WHAT IS THE HEALING PLACE?

The Healing Place (THP) provides a path to recovery and a second chance at life for men in our community. THP is an evidence-based peer model program that offers the tools, support, and hope for long-term recovery. Our program offers three services: 24/7 Specialty Shelter, The Recovery Program, and Transitional Living.

THP is a program of CARITAS, a non-profit organization with a mission to break the cycles of homelessness and addiction in the Greater Richmond community. CARITAS has four programs: The Furniture Bank, the Shelter, CARITAS Works, and THP.

70% of clients who complete The Healing Place Recovery Program are sober 1 year later.

WHAT IS THE 24/7 SPECIALTY SHELTER?

Single men who express an interest in recovery and have no place else to go can stay at the 24/7 Specialty Shelter.

Guests at the Overnight Shelter meet clients from the Recovery Program. These people carry a message of recovery and hope.

Many people decide to enter the Recovery Program after meeting others

What you should know about the 24/7 Specialty Shelter

- There are a limited number of shelter beds available for those suffering from a substance use disorder and looking for help.
- Guests do not have to be clean and sober to stay in the shelter..
- Shelter is provided one night at a time.
- The shelter serves dinner and breakfast and has showers for guests to use.
- Guests can get clothes from the clothing closet Monday, Tuesday, Wednesday, and Friday 12 -1 p.m. and 5-6 p.m.
- Guests must take all their belongings with them when they leave in the morning.
- Recovery Program clients take Shelter clients to classes and 12 step meetings upon request.
- Recovery Program clients give Shelter clients tours of The Healing Place and talk about how they got into recovery.

Families are often forgotten in the recovery process. Recovery is available for them, too.

WHAT IS THE HEALING PLACE RECOVERY PROGRAM?

The recovery program helps people who are suffering from substance use disorder. THP is a high quality evidence-based path to recovery.

What to know about the Recovery Program

- In the Recovery Program, clients see others who are in recovery. That gives them hope that they can recover.
- It takes most people 12 to 18 months to finish all phases the Recovery Program.
- Clients earn their way from one part of the program to the next. Clients sometimes have to go back into an earlier part of the program. If that happens, they can always earn their way back up and try again. Moving back does not mean the person has failed or will not do well.
- People can come back to The Healing Place as many times as they need to.
- No one needs an appointment. People can get help whenever they come to The Healing Place.
- We offer a hand up, not a handout.
- If the client does a little, we will do a little. If the client does a lot, we will do a lot.
- All clients are able to have their laundry done on property.
- No one is allowed to stay in the program if they use alcohol or other drugs. We will give a person a chance to start the program over. To get back into the Recovery Program, a person will have to go back to the 24/7 Specialty Shelter and go to classes.
- We do our best to help those who want help. Some clients may have physical or mental challenges that would limit success at THP. We do our best to make referrals to other community partners in these cases.

The Recovery Program has five parts:

- *Orientation*
- *Off the Street I*
- *Off the Street II*
- *Phase*
- *Transition*
- *Alumni Status*

How do clients become Alumni?

They must find a job, save money, and secure a place to live. They create a plan of action and review it with their peers in the Transition community. If their peers support the plan, they vote them into Alumni status. This means they can move out of The Healing Place transition apartments and into a place of their own.

Do clients need money while at The Healing Place?

No. The Healing Place provides food, shelter, toiletries and clothing. It is not helpful for families to give clients money. **For example:** Give them cigarettes instead of money for cigarettes. Give them a phone card instead of money for the phone. Give them a bus ticket instead of money for the bus. Money triggers some clients to think about and start using again.

Clients should attend all scheduled court dates and probation appointments. We will not write letters excusing clients from court or probation appointments.

Medical Appointments

Clients should attend all outside medical and mental health appointments. They must do all the needed paperwork before the appointment and find transportation. If they cannot find transportation, bus tickets may be available.

Medicines

A list of approved and non-approved medication is available to clients. [Click here.](#)
